Hello Michael!

Congratulations! Your FY14 IGAP Unmet Needs/ Special Project application is complete! I have approved your proposal and received all your application forms. Electronic copies of all your final documents are attached here, please save them for your records. Our internal processing is underway, and I will complete my funding recommendation as soon as possible.

Note that no new assistance agreement or award has been made yet. At any time during the processing of your application, EPA R10's Grants Administration Unit or Office of Ecosystems Tribal and Public Affairs may still require additional information or changes, choose to deny funding, or choose to withhold funding until a later date or until conditions have been met.

We will let you know if we need any additional information or changes. If and when an award is offered (sometime soon), you will receive a new assistance agreement or amendment. Note that it no longer needs to be signed and returned to EPA, instead your drawdown of funds will be considered acceptance of the agreement.

Thank you again for all your work!

Katherine Brown, M.S.
